THE ORCHARD BAR INFORMATION

We are really looking forward to supplying the bar service for your wedding at Oaks Farm. We thought you might like to know a little more about how our bar service works.

Firstly, by making your booking with Oaks Farm, our bar service is automatically included.

We offer a comprehensive range of alcoholic and soft drinks for your guests to enjoy.

For our service there is a minimum spend of £500, which if it is not reached by the end of the night has to be settled by the couple when the bar closes.

CARD PAYMENTS ONLY

We only accept card payments behind the bar. There is no minimum spend amount.

SETTING UP A TAB

A question we are often asked is if you are able to set up a tab. The answer is yes! We have a secure card safe behind the bar and all we ask is that a card is placed behind the bar at the start of the night and the tab is settled at the end of the night. We are really flexible with how the tab works. For example, you could specify you would like your guests to have any drink available or just wine and beer. A popular option is for any drink, except doubles and shots. With regards to the amount of the tab, again this is completely flexible. For example, you may want to set a limit of £1,000 and once this is reached the bar would revert to a cash bar (ie your guests pay for their own drinks) or you may choose to extend the tab depending on how generous you are feeling!

Just let us know beforehand if you would like to set up a tab.

TOKENS

Another question we are often asked is if you can provide a drink for your evening guests on their arrival. We find the best way is to provide your evening guests with a token to hand to the bar to receive their drink. This enables us to distinguish between your day guests and evening guests. We would then set up a tab (to be settled at the end of the night). Again we are flexible on which drinks you would like available for your guests.

DAY TIME BAR

As well as automatically providing the bar service for the evening of your wedding party, you also have the option of the bar being open during the day (to open after the end of your ceremony). This is a great option if you are working to a tighter budget or would prefer to not have to purchase the day time drinks for your guests. If you were to have the bar open during the day, the cost is £120 and we ask that the drinks you provide as part of the arrangement with Oaks Farm are limited to one type of reception drink, table wines and for your toasts.

If you have any further questions, please do get in touch,

Hayley
